Gerald.

I'm sorry but I have become increasingly uncomfortable with the way this project is going, and I think I need to bow out. If and when I can get paid for last month's invoice, I will give you a stamped plan showing the existing structure with respect to lot boundaries along with some relevant elevations... and will also share my research and calculations with any reputable outfit you decide to go with.

This isn't the way I do things, sorry. Tocky

Anne W, Bialobrzeski NHLLS #752 NHDES Septic Designer #348 Stockton Services PO Box 1306 Hampton, NH 03843-1306 603 929-7404

I don't see the need to wait for complete architects drawings before working on wetland permit application unless the areas of disturbance are still not decided on. Your wetland and shoreland permitting is going to take a long time. I also assume your architect is taking all zoning requirements into account, e.g. 60% maximum sealed surface, 35' building height, etc etc.

Invoice is attached, thanks very much.

Have you gotten Marc Jacobs on board?

Merry Christmas.

Tocky

Anne W, Bialobrzeski

That shouldn't be an issue. Sorry for the delay we are still waiting on the architect's drawings. He's really holding things up I can't even get estimates done till I have them. I'll keep you posted and again apologize for the delay.

Thank you Gerald Bouchard Owner Bouchard Construction (603) 828-7241

Hi.

This is moving a little too slowly, and I like to have a clean line between years....I have determined both boundaries and necessary elevations for the property.....can I bill you \$1000 for work to date?

Tocky

Sorry fro the late reply but yes we are still moving forward. I have spoken with the scientist and he definitely feels he can fit us in. The project is lagging a bit do to me I'vebeen lagged down do to work load but just hired another guy in hopes to free some of my time up. If there is anything you think you can help direct me with to expedite the process please let me know.

Thank you Gerald Bouchard Owner Bouchard Construction (603) 828-7241

I spoke with Dawn and Mathew and they are ok with the higher end price you mentioned at \$2500. And are prepared to move forward. I'll work on contacting the scientists. As of right now the only questions I have are.

1: Am I to fillout the attached shoreland form or is that one of the one you said you would do. 2: Could Al Lagenra do what the Environmental Scientists needs to? Just a shot in the dark but thought it may be worth a shot?

Thank you Gerald Bouchard Owner Bouchard Construction (603) 828-7241

Good morning,

Thanks for forwarding the plan. The property is within the prime wetland buffer out there and entirely within the protected shoreland.

- 1. This project is classified as a major impact project in accordance with the following:
 - a Env-Wt 303.02 Major Projects (f) Projects located in or adjacent to prime wetlands designated under RSA 482-A:15; therefore, please provide a complete response to Env-Wt 703.01 (attached);
- 2. 2. As this project is classified as a major impact project, the plans must comply with Env-Wt 301.02(b). Env-Wt 301.02 Classification of Wetland Types. (a) Wetlands shall be classified by the applicant in accordance with US Fish and Wildlife Service Manual FWS/OBS-79/31 Classification of Wetlands and Deepwater Habitats of the United States, Cowardin et al, 1979.(b) Wetlands classification shall be identified on plans for all major projects involving dredge and/or fill of wetlands.
- 3. 3. The plans must also comply with Env-Wt 301.01 (g) Any plan required by RSA 482-A that is submitted in support of an application for dredge and fill of wetlands that presents a major or minor project in accordance with Env-Wt 303.02 or Env-Wt 303.03, respectively, shall be: (1) Stamped by a certified wetlands scientist as certified by the New Hampshire board of natural scientists, when that individual prepares the plan(s);
- 4. They'll also need to complete the shoreland application worksheet.
- 5. Both projects could be submitted under one wetlands application.

Best,

Eben

Subject: 77 Brown Ave, Hampton

Hi Eben,

Can you help me help these people?

They want to raise the house, possibly with small enlargement of footprint on street side, with a new foundation.

- 1. What kind of permit do they need?
 - a) how long will it take?
- 2. They are not asking but I am..... If they could or wanted to repair the old retaining wall at the back, what would that involve on your end?

I'm sure there will be more questions but wanted to know what they are in for before I join the team.

see attached, talk soon, thanks,

Tocky

placement of your proposal is attached. My initial reaction......

- 1. your elevation drawings do not match the plan information, notably the back deck and stairs.
- 2. I don't think you can get this proposal approved, and
- 3. even if you could, if you are planning to put a car in that garage, how are you going to get in and out?
- 4. Your drawings do not reflect the fact that your slab is going to be 3' above existing grade.
- 5. I am concerned that the building design does not take into account that your slab is going to be 3' above grade. I am neither qualified nor willing to try to develop a construction/grading plan for this proposal. Unless you have an engineer who is willing to assume responsibility for it, I have to stick with my abdication.

I am way underpaid for my time on this (with more hours today) and don't want to spend any more, please.

I'm sorry but I am not willing to put my stamp on a proposal that I can't support.

Good luck.

Tocky

Sorry I didn't send these right out. With all the changes that have been made to date I wanted to be 100% before I sent them. I spent an hour yesterday on the phone with the two of them Ironing out the details. Attached are close enough to the final plans that I feel comfortable moving forward. Please advise if you see any issues. Thanks again for your hard work to date.

Thank you Gerald Bouchard Owner Bouchard Construction (603) 828-7241
